Subject Re: Lane street site.....

History: This message has been replied to..

Since it is a groundwater plume any RP is not currently known.....The state is investigating and perhaps someday they will identify a RP. I can basically write it up or you can glean enough details from the AM to write a paragraph basically saying that we "don't know who did it".....I should have it to th lawyer today and you and him can discuss who you say "we don't know who did it" in lawyer-eze!

Ken, I don't have any info to write an enforcement addendum with. Did you do the action memo yet? Any paperwork from the state? Maybe I can review your action memo and write an enforcment addendum with that info? I really don't know anything about the site. Did you clean it up yet? Jim Morris is the the attorney.

Subject: Lane street site.....

Hey, I'm finally getting around to doing the Lane Street AM.....the Enforcemnet confidential addendum is a no brainer.....this is contaminated groundwater site and we don't have one.....who is the lawyer? is it Jim Morris? he did the Des Plaines street viaduct site.....also a no brainer....does the enforcement specialist want to write the above or can I do it or do es the lawyer want to dfo it.....?
